SBS Language Services Review 2026

Every five years, alongside the national Census, SBS reviews its language services to ensure they continue to reflect today's Australia and best serve our changing and diverse population.

From Monday 5 October to Friday 13 November 2026, we're inviting public feedback on the draft Selection Criteria.

This is an opportunity for audiences and communities to help shape the future of SBS's language services. Please provide your feedback using the online form on our website.

The final Selection Criteria will be published in May 2027. Together with the 2026 Census data, this criteria will determine which languages SBS will service from December 2027.
